Unpacking your Zhu Zhu Aquarium™ Coral Reef Tunnel Combo Set

Remove all contents from package and discard any rubber bands, wire ties, or other packaging materials that are not part of the product.

Please Note

- Retain these instructions as they contain important information.
- Read all of the instructions before assembling your Coral Reef Tunnel Combo Set.
- Some adult assembly is required.
- The Zhu Zhu Aquarium™ Coral Reef Tunnel Combo Set is a toy. It is not intended for use with live animals or in water.

The Coral Reef Tunnel Combo Set is made to be used with Zhu Zhu Aquarium™ Fish which are sold separately. The Coral Reef Tunnel Combo Set works best on a smooth and open floor.

For more information on the Zhu Zhu Aquarium™ and other aquarium add-on sets and accessories please go to:

www.zhuzhuaquarium.com

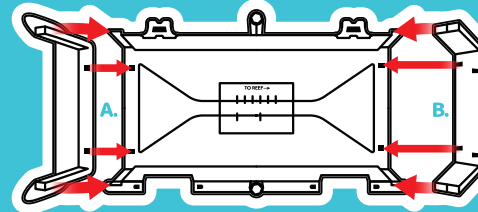

2

Assembling the Zhu Zhu Aquarium™ Coral Reef Tunnel Combo Set

To maximize your Zhu Zhu Aquarium™ Fish's interaction with the playset, always use the tunnel marked "TO REEF →" as the entrance.

NOTE: Fish will not make noises or perform actions specific to playset unless it enters through this tunnel in the direction of the arrow.

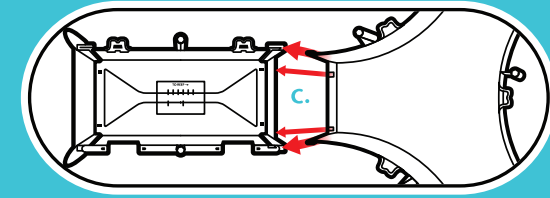

- Attach the Ramp to the opening of the Tunnel **before** the engraved message: **TO REEF →**. Start at the top and snap the Ramp down into place.

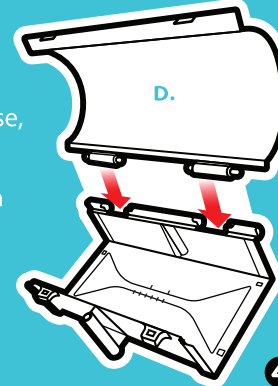

- Attach the Connector to the opening of the Tunnel **after** the engraved message: **TO REEF →**. Start at the top and snap the Connector down into place.

3

- Similarly, attach the Y-Junction, Turn, or Tunnel to the open side of the Connector by starting at the top and snap the Junction down into place.

- To attach a Tunnel top to a Tunnel base, press one post on a Tunnel top into the hinge notch on a matching Tunnel base. Snap in the other post.

4

• **FISH SOLD SEPARATELY!**

- **DO NOT PUT FISH IN WATER!**
- **KEEP HAIR AWAY FROM WHEELS!**

8

- Close the Tunnel top, noting how the other side of the top snaps into place.

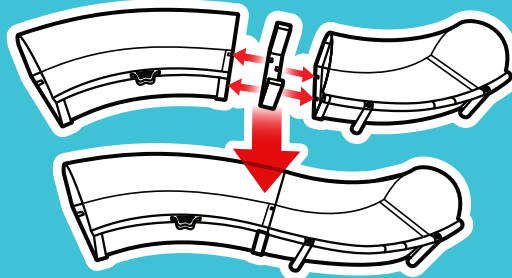

- Tunnel top closes as indicated in step "E."

- To attach Y-Junction top, align the 3 hooks of Top with the 3 hoops of the Base and snap into place.

Assembling Turns as an S-Curve:

By reversing one of the Turns and using a Connector, you can create an S-Curve track.

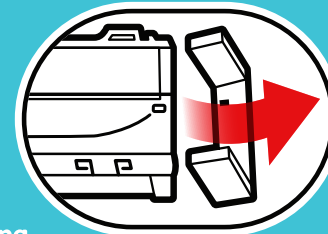

6

Assembling Turns as an S-Curve Continued:

The S-Curve can be attached to other add-on sets - which are sold separately.

Disassembly

To remove a Connector, gently pull apart from the bottom.

Troubleshooting

- Designed to act randomly and unpredictably, Fish may not act the same each time.
- If Fish gets stuck entering the Coral Reef, check all the snaps and Connector junctions.
- Fish works best on smooth, hard, and even surfaces. It will not work in water, carpet, or other soft surfaces. Do not use in sand or grass.
- The Coral Reef Tunnel Combo Set also works best on smooth, hard, and even surfaces.

7

5

- To attach a top to a Turn, press the center post on the Tunnel top into the hinge notch on the matching Turn base. Snap in post.
