Troubleshooting

- The ZhuZhu Pet™ is designed to act randomly and unpredictably, so it may not act the same each time in the Firetruck.
- If the ZhuZhu Pet™ gets stuck entering the Tunnel, Station, or Firetruck, check all the snaps and Connector junctions.
- Be sure the Firetruck is snugly located against the back wall of the Fire Station.
- Your ZhuZhu Pet™ works best on smooth, hard, even surfaces. It will not work in water, carpet, or other soft surfaces. Do not use in sand or grass.
- The Firetruck & Station Set works best outside the track and on other open surfaces.
- If the ZhuZhu Pet™ does not move in the Firetruck, make sure the wheels are still lined up with the openings on the bottom of the Firetruck.
